MY GOVERNANCE

WE DIGITIZE YOUR COMPANY

ALL OUR SOLUTIONS

MY GOVERNANCE

WE DIGITIZE YOUR COMPANY

MY GOVERNANCE

My Governance is a web based suite, accessible from all over the world.

My Governance comprises different software solutions that are revoluzioning the internal documents management for Multinationals, SMEs Companies, Public Adminstrations, private Firms.

My Governance offers simple but highly technological software solutions, focused on processes digitalization.

My Governance simplifies and speeds up the processes which are mainly based on traditional tools such paper, e-mail, and intranet.

My Governance grants saving of money and time, as well as sustainaiblity, in full compliance with the law.

MY GOVERNANCE

APPROVALS

MY GOVERNANCE
APPROVALS

My Approvals digitizes the internal approval processes.

With **My Approvals**, our Clients will avoid to send a document via email asking the receivers to print, fill, sign, scan and send it back to the original sender who in turn shall download, rename and archive it.

Can you imagine to repeat such traditional process for 100, 500, 2.000 o 40.000 employees, agents, suppliers, clients...
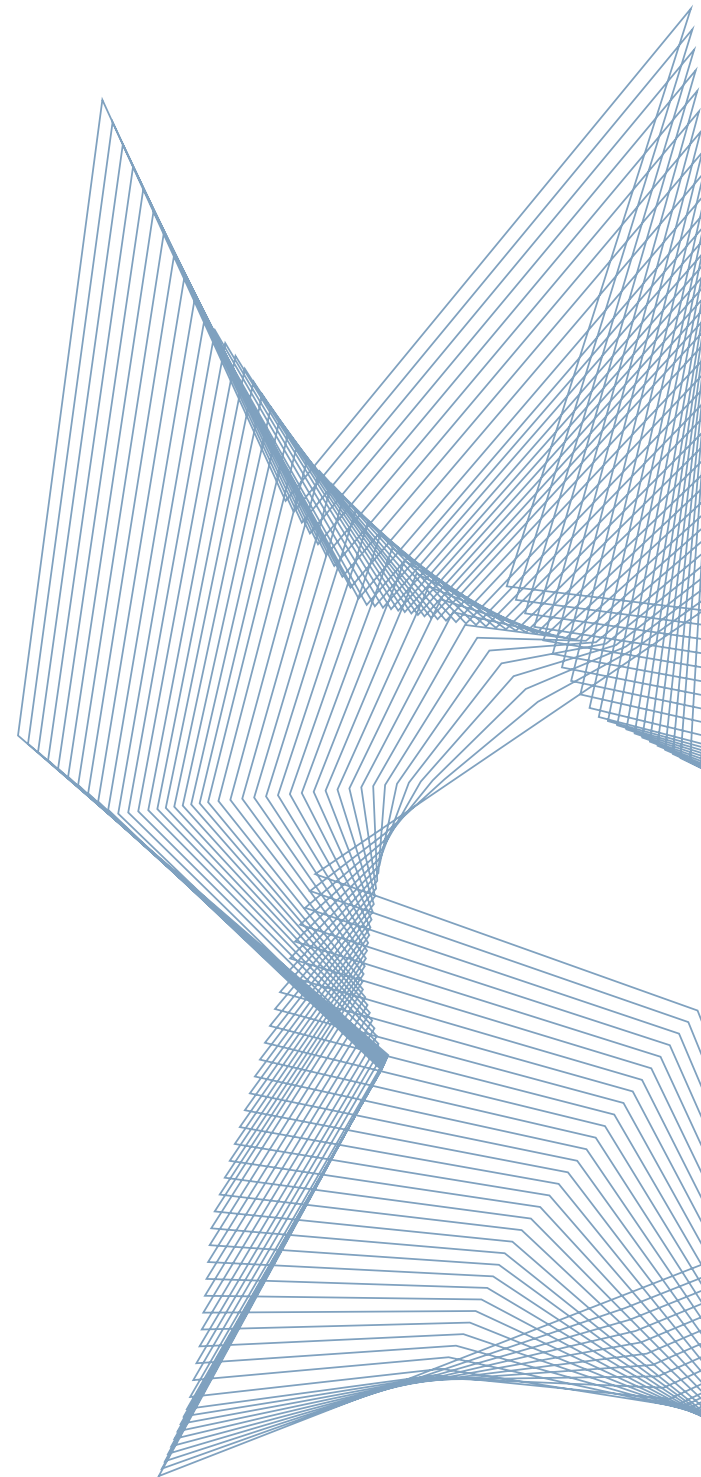

All the above is taken just by a click!

MY GOVERNANCE

WHISTLEBLOWING

My Whistleblowing is the technical solution already applied by many multinationals and listed companies that allows to manage, with a digital tool, the whistleblowing reporting process, mandatory since 2018, in a simple, safe and efficient manner. It complies with the Italian Anti Corruption Authirity guidelines.
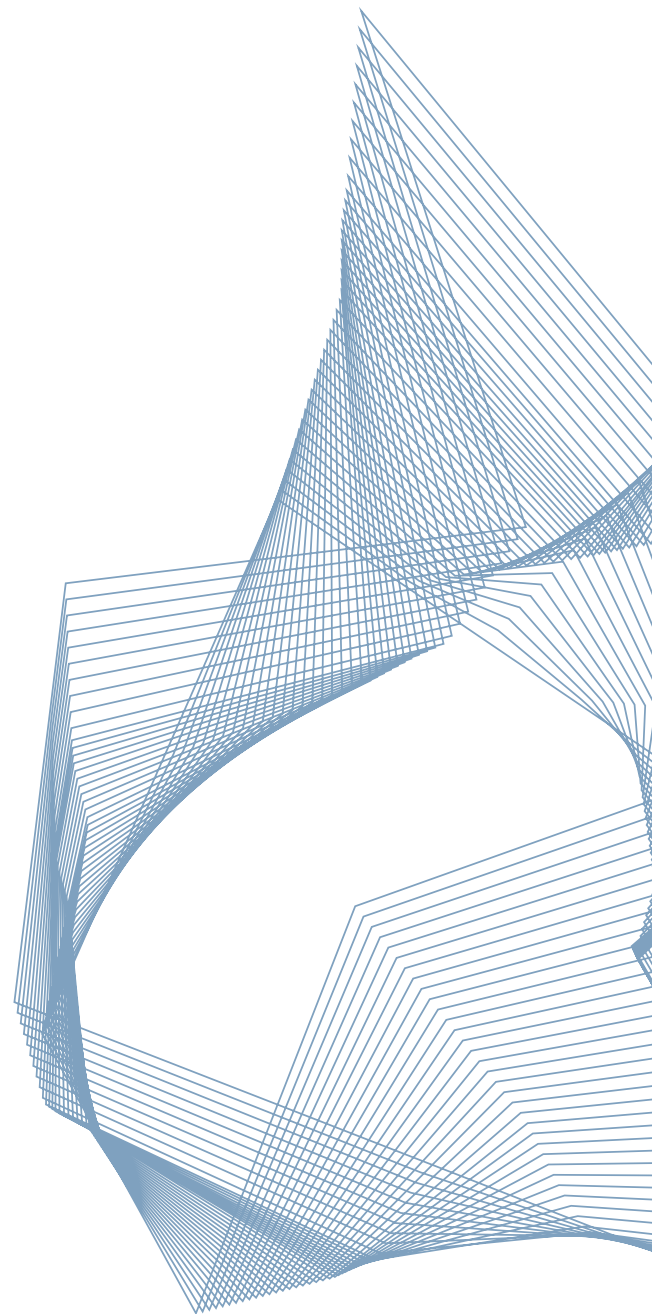

My Whistleblowing – differently to the other solutions offered by the market – grants a constant communication flow between the Supervisory Body receiever and the whistleblower thanks to email notifications in all, anonymous and not anonymous reports.

MY GOVERNANCE

RECEPTIONIST

My Receptionist allows you to digitize the reception processes of the company guests (customers, suppliers, candidates, consultants); no more unnecessary paper forms to fill in with arrival time, internal contact person and exit time, as well as the delivery, still in a paper, of the documents required by law (such as security procedure and privacy information).

This, besides being an obsolete process, is often contrary to the Data Protection Regulation - giving the possibility, to those who fill out the "traditional" paper sheet, to know who had access to that day in the company.
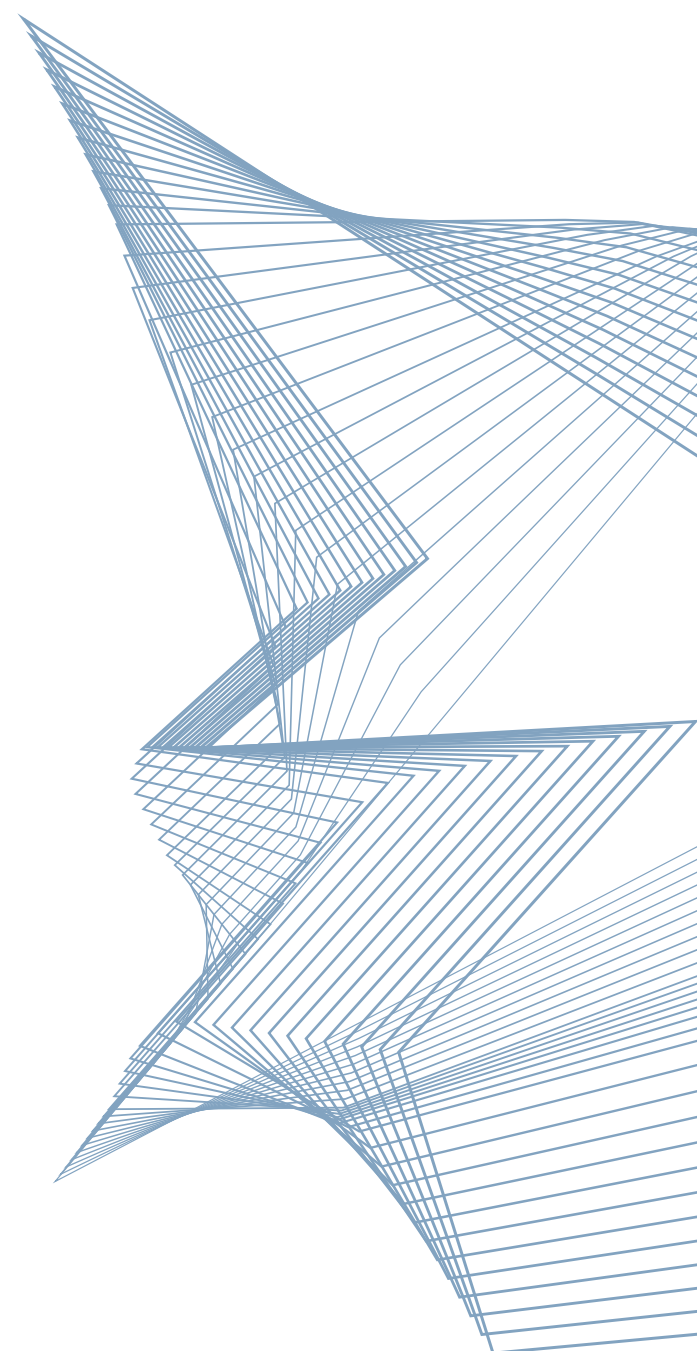

MY GOVERNANCE

MEETINGS

MY GOVERNANCE
MEETINGS

My Meetings allows you to manage, in an interactive and digital way, the Boards of Directors, the Shareholders' Meetings, the 231 Meetings of Multinationals, listed companies, SMEs, Consortia, Foundations, Cooperatives and Public Bodies.

My Meetings guarantees high performance, security in communications and great reliability, avoiding paper and unnecessary waste of time, by digitizing the whole process, from the meeting convocation until the final minutes. Moreover, it allows to request in real time the approval of every single item on the agenda and to insert comments that can be easily reported in the minutes.
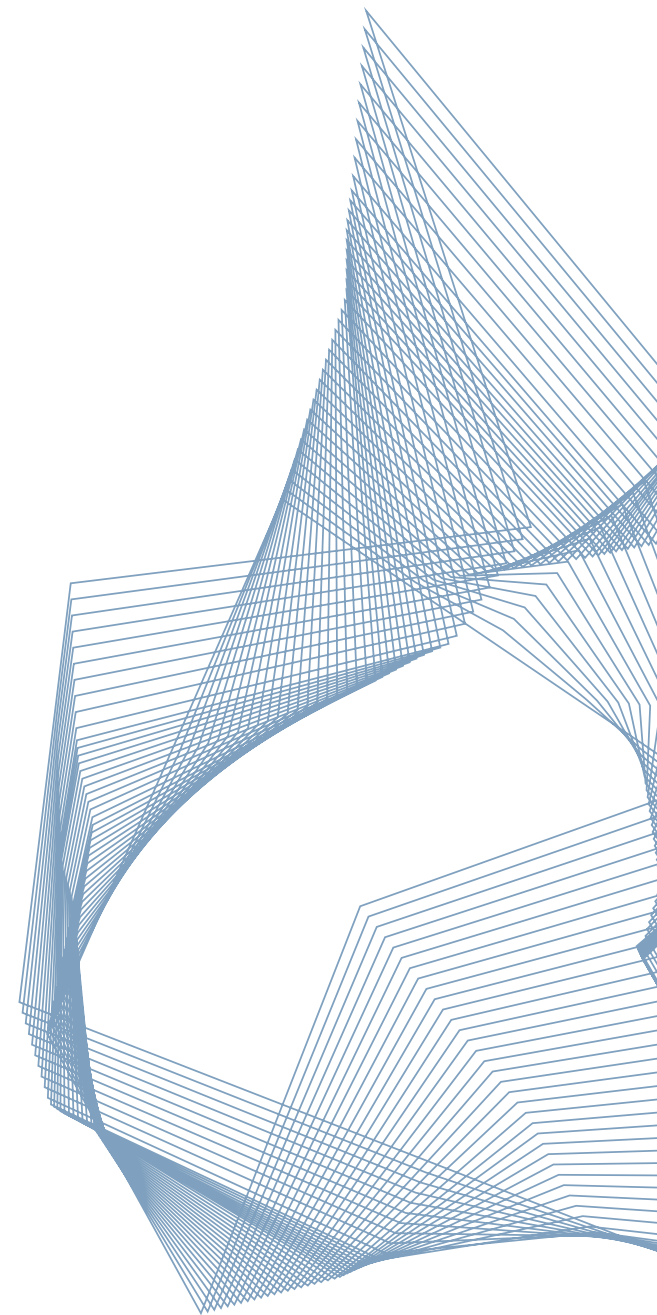

MY GOVERNANCE

MANYtoMANY

MY GOVERNANCE
MANY*to*MANY

My Many to Many allows you to upload endless documents within the system that will be processed and automatically sorted to the recipients of the same (ie payroll, MBO, contracts, etc.)
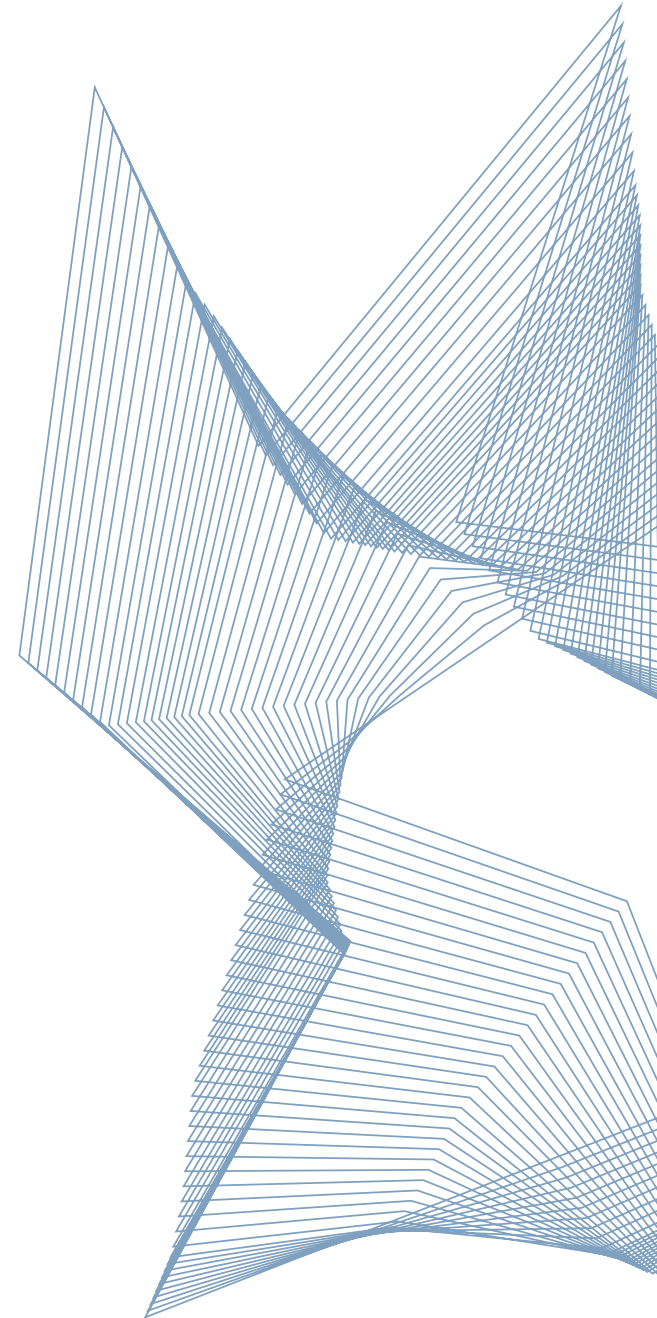

MY GOVERNANCE
FORMS

MY GOVERNANCE FORMS

My Forms allows you to create online forms and questionnaires for a fast and efficient collection of information.

With **My Forms** you can also manage membership registrations with a request for payment of membership fees and, consequently, automatic reminders.
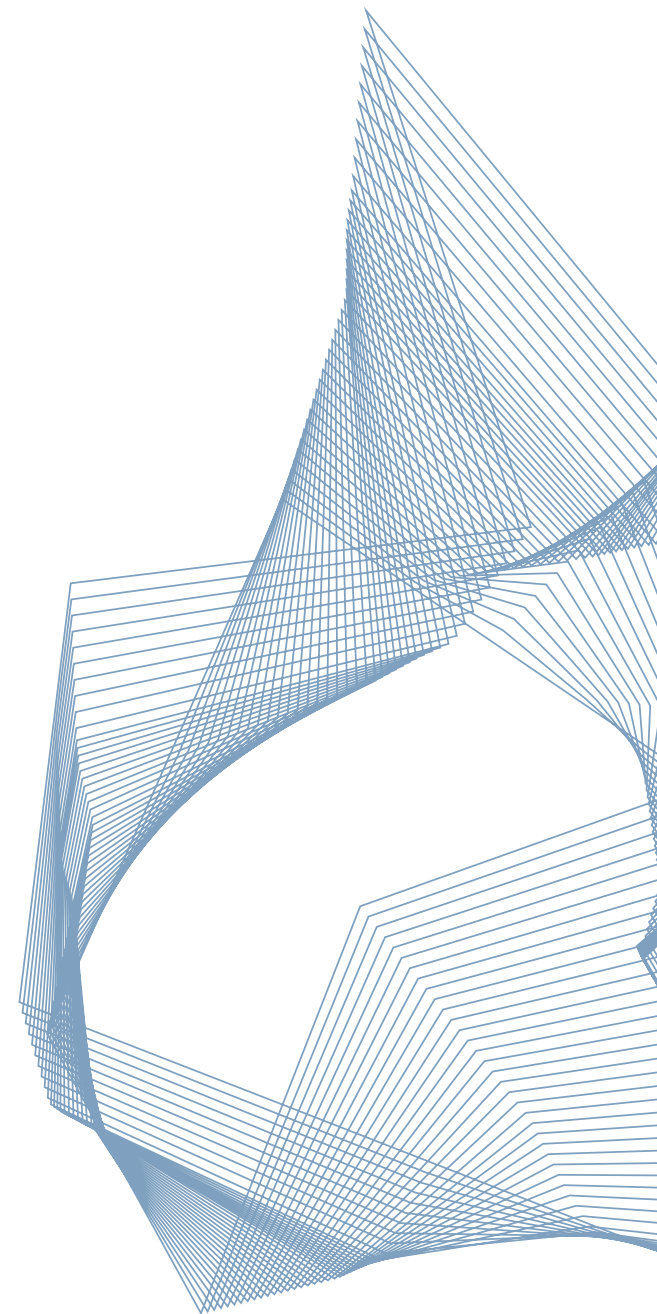

MY GOVERNANCE

ARCHIVE

MY GOVERNANCE
ARCHIVE

My Archive allows to share and store documents giving the possibility to set different levels of protection, security, encryption and accessibility based on the confidentiality to give to these documents.

My Archive can be used whenever you want to share documents that cannot be sent via e-mail or through simple portals for document sharing due to security and confidentiality issues.

MY GOVERNANCE

...MAKE IT EASIER!
